QUOTATION

Product Specification

Image/Item Des.	Machine's dimension(cm)				Packing Size(cm)			CBM(m3)	G.W(kgs)	Package	
	L	W	H		L	W	H			Exporting Wooden Case	
BS-6040(30w)	120	80	105		136	105	104	1.5	200	wooden packing	

Parameters of Products

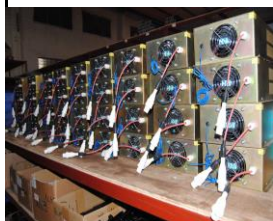

engraving area	600*400	Gross power	800w
engraving speed	0-64000mm/min	Operating temperature	0-45
laser power	30w	Operating humidity	5%-95%
Resolution ratio	0.025mm	Graphic format supported	BMP,GIF,JPEG,PCX,TGA,TIFF,PLT,CDR,DWG,D XF
Minimum shaping character	1mm for letter,2mm for Chinese		
Ressetting positioning accuracy	0.01mm	Net weight	150kg
Power supply	220V+-10%,50HZ	Dimention	136*105*110CM

	name	quantity	Feature:
Machine's Accessories	air pump	1pc	Built with reflex system, imported linear guide rail system and high precision carving knife for stable operation. Microcomputer control engraving machine operation, processing large size, fast speed, simple process, easy operation. The use of USB port to transmit data, and is equipped with built-in large capacity memory, greatly improving the speed and efficiency of the work.
	fan	1pc	
	the wind pipe and water pipe	2pc for each pipe	
	other standard layout	/	

Machine Construction & Features

The structure of the machine's body: **(with a up and down table itself)**
 the rigid frame structure, is durable and prevent deformation.

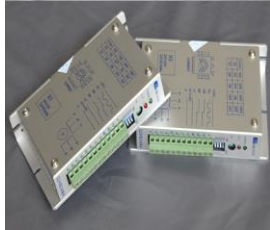

laser power:
 the high voltage power supply set of constant voltage combination

Laser tube: produced by the study of military laser

AMT track:
The imported from Taiwan for balanced straight line AMT track, which working life is double of homemade pulley track.

Driver: the Hong Kong BS series chip group drive

Motor:
a series of professional stepper motor and drive system from Hong Kong

Lens:
use high temperature resistant fiber materials production of professional three to reflex system

Aluminum rods platform:
Movable rods offer more space to control different size of materials. Easier handle acrylic, wooden, glass and so on.

English control panel:
160*80 the LCD liquid crystal box, provides the friendly man-machine contact surface, supports the multi-languages and the menu, the graph function. It has enough memory for storage of over **128** files. Flat Table for Rubber Stamp making.

With rotary attachment: **(optional part)** Rotary attachment is used for engraving on cylindrical or round object, such as bottle, cup, trophy, brush holder and other arts and crafts. Revolving engraving device is Baisheng laser for satisfy a craft gift etc. the professional revolves carvings design of a kind of special device.

Industrial cooling machine: **(optional part)**
The laser tube adopts compulsive water cooling system, it can control the temperature automatically. It will alarm if there is a shortage of water thus ensure the continuous work of the laser tube.

The red light positions system: **(optional part)**
Improve processing positioning accuracy

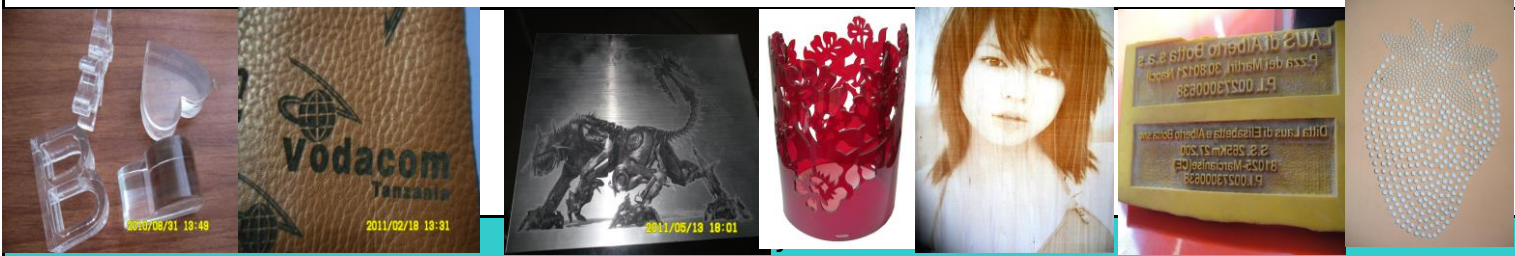

Water pump:
Circulating water to cool laser glass tube

Air pump:
Eliminat the harmful and damaging side effects of mosture on the laser optics. Also,provides the optimal air pressure your laser needs to blow away vaporized particles and helps prevents over hearting.

Applicable Industry and Cutting Samples

Wood, paper, leather, cloth, organic glass, resin, acrylic, woolens, plastic, rubber, ceramic tile, crystal, bowler, bamboo.

- 1. Validity: The price is valid for 14 days.
- 2.Price term: prices are based on ex Selangor
- 3.Terms of payment: 40% deposit on order, balance 60% prior to installation.
- 4.Delivery time: 3 to 5 weeks after receipt of Purchase Order and Deposit payment.
- 5. Warranty : 12 months from date of installation except wear and tear parts and consumables, eg. Water chiller, exhaust fan, lens, mirrors, laser tubes, etc.
